Newborns’ and Mother’s Health Protection Act

Group health plans and health insurance issuers generally may not, under Federal Law, restrict benefits for any hospital length of stay in connection with childbirth for the mother or newborn child to less than 48 hours following a vaginal delivery, or less than 96 hours following a cesarean section. However, Federal Law generally does not prohibit the mother’s or newborn’s attending provider, after consulting with the mother, from discharging the mother or her newborn earlier than 48 hours (or 96 hours as applicable). In any case, plans and issuers may not, under Federal Law, require that a provider obtain authorization from the Plan or the insurance issuer for prescribing a length of stay not in excess of 48 hours (or 96 hours).

Women’s Health and Cancer Rights Act of 1998

As required by the Women’s Health and Cancer Rights Act (WHCRA) of 1998, this plan provides coverage for:

Such coverage may be subject to annual deductibles and coinsurance provisions as may be deemed appropriate and are consistent with those established for other benefits under the plan or coverage.

The provider of our group health plan coverage reports that they have always provided coverage for these services and will continue to do so in consultation with the attending physician and the patient. Any deductibles or coinsurance will apply consistent with other benefits in your plan.
