Weight Management Program guidelines

Selecting an approved weight management program

Choose Weight Watchers and attend weekly meetings, or opt for an approved weight management program based at a network hospital. Some weight management programs for members under age 18 may also be eligible for reimbursement. If you like, you may join more than one program per year; however, the maximum reimbursement you can receive is \$150 per year issued once per calendar year.

Weight management with Weight Watchers

The Weight Watchers program combines in-person group sessions, education, and tools to help you make the nutrition and exercise decisions that are right for you. With Weight Watchers Online, you can create a customized weight loss plan and use online and mobile tools to help you track your progress anywhere you go.

Weight management at network hospitals

Many of our network hospitals offer weight management classes to the community. Programs and schedules vary from hospital to hospital. For more information about available programs, contact the community health education department of your local hospital.

Weight management programs designed for youth and adolescents

Reimbursement is available to help with the cost of programs designed for minors. The program must focus on behavior modification, nutrition education, and have a goal of losing weight. Youth programs are commonly available through YMCAs, community centers, and hospitals.

Use the *Find a Doctor tool* on [ibx.com](https://www.ibm.com) to locate a network hospital in your area, or call **1-800-ASK-BLUE**.

Weight loss programs that are not reimbursable:
