October 8, 2020

Dear Parent and Guardians,

I want to share some information about meal distribution as we move into the hybrid model. Through December 22nd, breakfast and lunch will be offered daily at no cost to parents for all children regardless of income or Free/Reduced Lunch eligibility. All foods will be bundled together (hot and cold separated) for students to pick up as they go through the lunch line. Meals will also continue to be distributed at Henderson High School on Tuesday and Thursday 10-12. This will allow students to receive meals on the days that they aren't in person at a building. The menus for October and November are combined and can be found on the [Food Services Menu](#) page.

Because we won't be using the Point of Sales (POS) system, a child's allergy won't automatically show up as the student checks out of the lunch line. The school nurses will be providing the lead cafeteria manager a list of students who have food allergies so that an alternative meal can be provided. Please note that no food will be served at the elementary level that contains peanuts. If you have any questions or want to verify that your child's allergy has been provided to the appropriate personnel, you can contact Aramark's Food Service Manager, Clare Disabatino [cdisabatino@wcasd.net](mailto:cdisabatino@wcasd.net) and she will communicate with each building's point of contact. You may also contact the school nurse.
