Dear WCASD Community,

The West Chester Area School District is saddened and disappointed by the recent nation-wide rise in violence against the Asian American community, including the March 17 shooting in Atlanta, Georgia. We stand in support of our Asian and Asian American students and are sensitive to the concerns that heinous acts like this cause for students and families here and across the country. Our District is committed to creating a school community that is free from racism, discrimination, and hate. Students who feel they need support and want to talk about these issues should reach out to our school counselors.

Sincerely,

A handwritten signature in blue ink that reads 'Jim Scanlon'.

Jim Scanlon, Superintendent
