

Allergens have always been a concern for our company and we strive to obtain flavors in which everyone can enjoy. The Hershey Creamery Company understands the importance of providing safe alternatives to those individuals with food allergens. Hershey strives to make the best ice cream possible. We pride ourselves on our variety and our quality.

A list of Tree-Nut allergen containing flavors for our stick bars and novelty products has been included to help those families affected by allergen concerns. This list is ever changing as Hershey develops new flavors. It is imperative that individuals with allergen concerns read our product labels for the most current allergen information.
